## STRATEGIC IMPACT

M-ERA.NET will enable collaboration between leading academic and industrial research partners from European and non-European countries and regions and will facilitate access to previously inaccessible new markets.

The joint calls will mobilise a critical mass of public funding to support key players in materials research to intensify their partnerships and to encourage newcomers to realise innovative RTD projects.

This increased interdisciplinary cooperation and exploitation of European and international roadmaps will create a new dynamism in the field of materials research and innovation whilst stimulating the generation of leading knowledge along the innovation chain.
